Canada's Top 100 Women Entrepreneurs

Maureen Lucas, President of LucasWorks! – with Head Offices in Windsor, Ontario is #44 on the Top 100 Women Entrepreneurs in Canada

“It is exciting to have this success and to have a Windsor firm in the Canadian Top 100 list”, says President, Maureen Lucas. It is our second year on the list and that is because of the great team both locally and in our London branch. It is a credit to all of them that a Windsor firm can have this type of growth. We are very proud of our city and the challenges we have faced and we believe that hard work and good business ethics are the key to overcoming those challenges. Small business growth is instrumental to our community revitalization and as a small business owner, I am especially proud of this recognition.
